OKLAHOMA'S BILL

The House Committee Reports a Substitute for the Senate Measure.

Washington, Feb. 17.—After the reading of the journal Mr. Carlisle rose and said that since the 29th of January his side of the house had been protesting every morning against the approval of the journal on the ground that it contained an entry made by direction of the speaker, showing names of certain members present and not voting. Last Friday the house had adopted a code of rules providing for such a practice. As against this the Democrats had protested and would protest as an unconstitutional practice. But it was as follows:

Mr. Springer, of Illinois, was for the bill because it promised to facilitate the transaction of pension cases. He favored an early adjudication of pension claims and invited the Republicans to bring on their pension legislation and let him vote for it.
